+ Next-level kitchens and bathrooms: the definitive guide

3. SMALL LIVING KITCHENS

by Falper

Bathroom manufacturer Falper's venture into the world of kitchens is markedly refined. The brand's Small Living Kitchens concept provides uncompromising quality in small spaces, through a combination of islands, storage and tall units, with some kitchens as small as 2.5 sq m. They come in a variety of styles, including marble and lacquer options. Each model is characterised by rational design, their functionality obvious in the thoughtful configurations of drawers and accessories.
