

SALONE 2023 BATHROOM COLLECTION PREVIEW

We revealed the stunning **MA** Collection by **Foster+Partners**, which offers a contemporary approach to bathroom design. We also highlighted **Victor Vasilev**'s innovations in the **Eccentrico** and **Minimum** collections. All the new collections explores texture through the unique palette of **Falper** materials. Together, we celebrated the beauty of **design** and the bonds that unite us.

Foster + Partners

Falper presenta in anteprima mondiale la collaborazione con lo studio londinese Foster+ Partners. Nasce una straordinaria collezione di arredi per il bagno, uno sguardo in avanti per promuovere bellezza e qualità e per essere l'occasione di riflettere sulle proposte nei nuovi spazi domestici.

Falper presents the exclusive preview of a collaboration with the London studio Foster+ Partners. An extraordinary collection of bathroom furnishings, the collection is a forward-looking archetype of beauty and quality and an opportunity to contemplate ideas for new kinds of living spaces.

MA

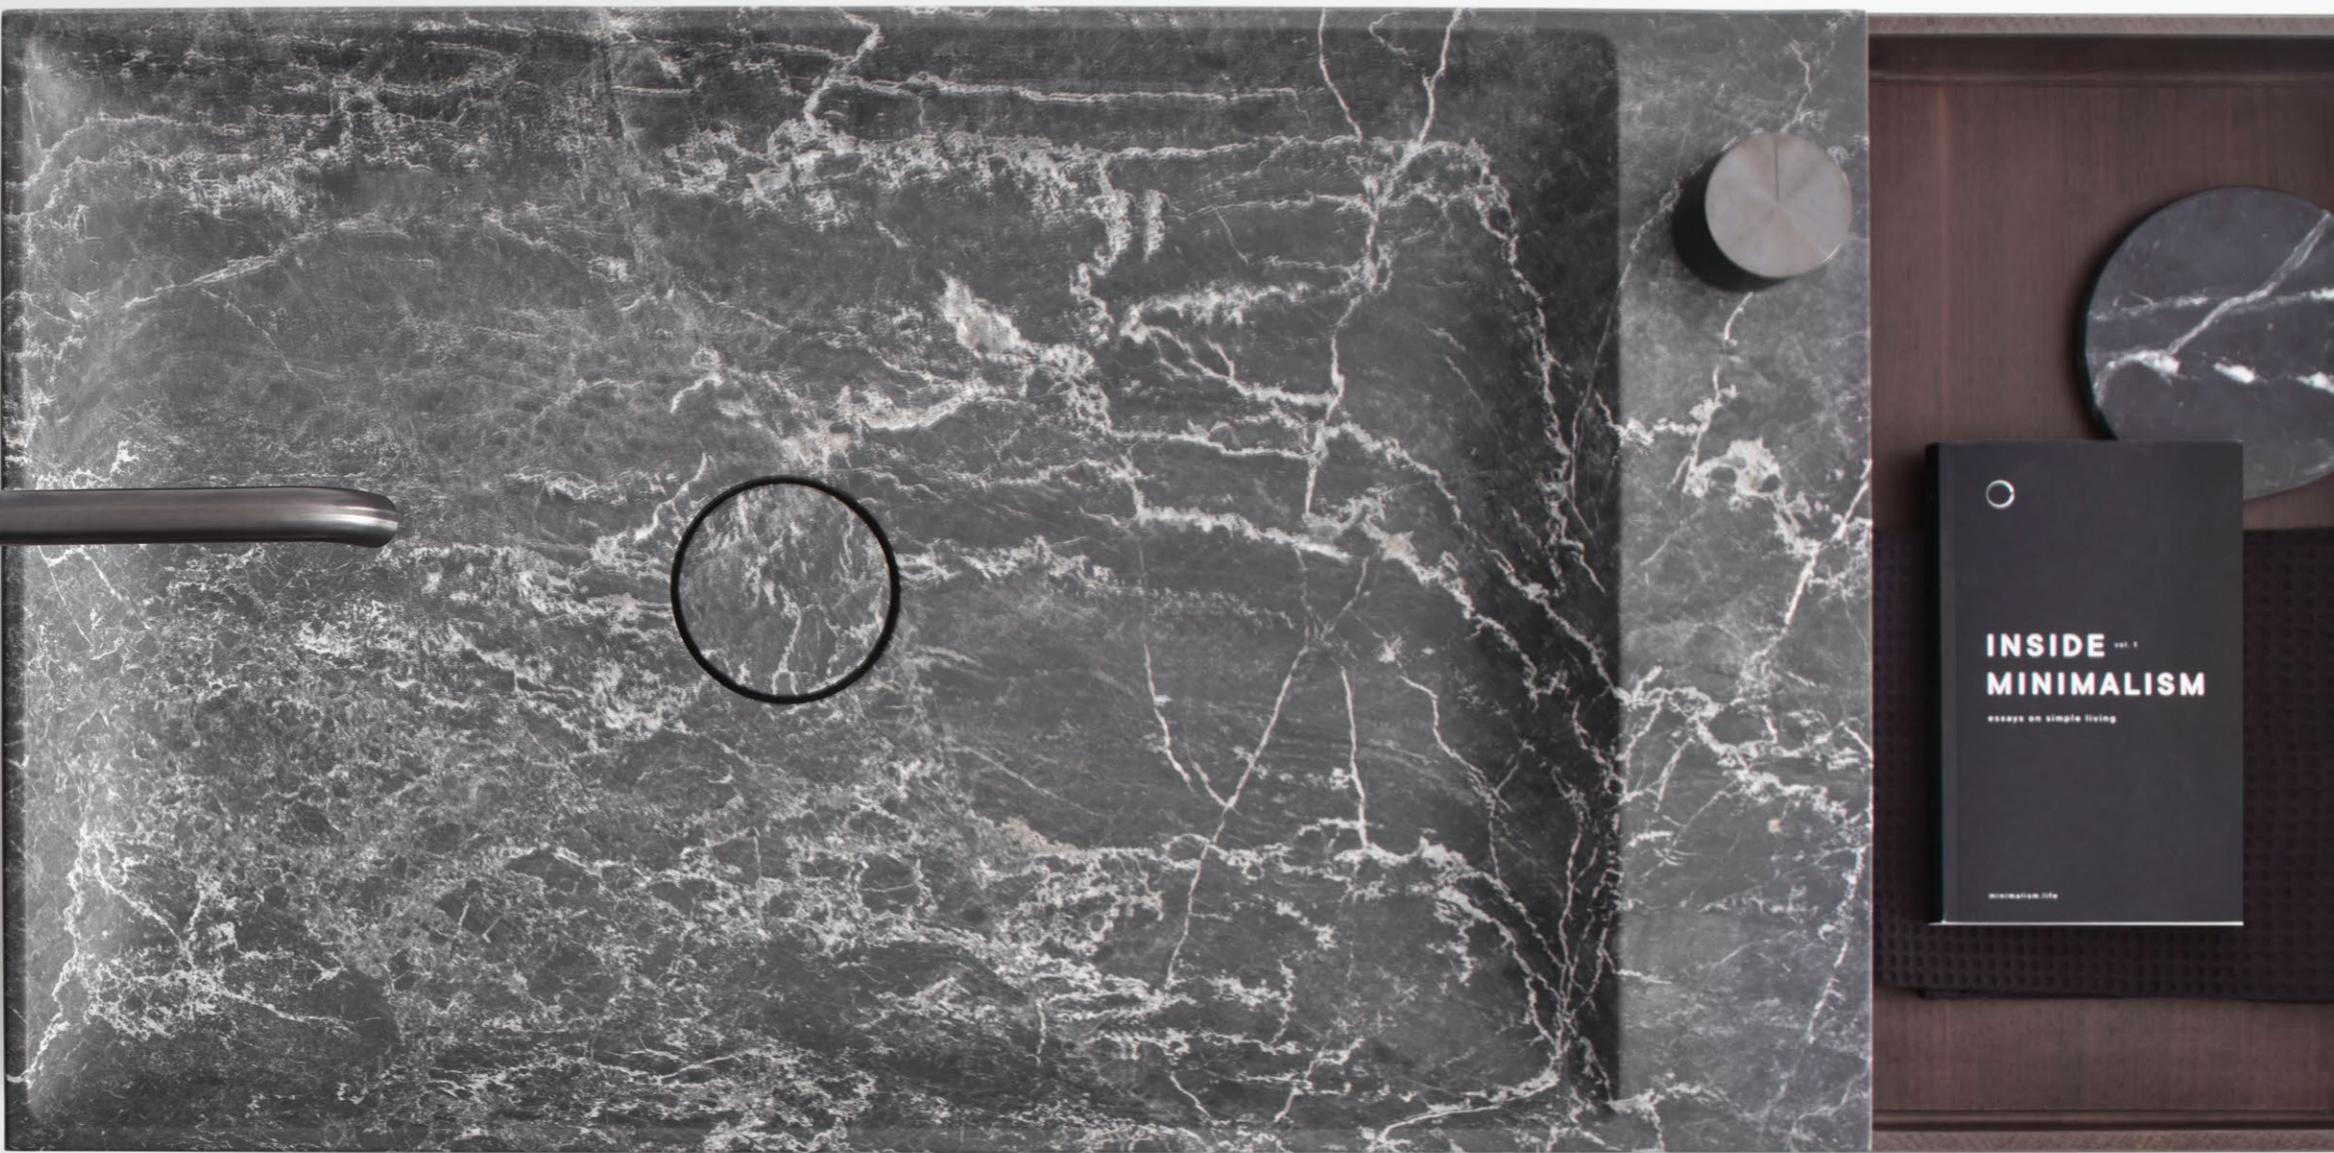

Con MA nasce una collezione unica che si distingue per l'uso di tecnologie innovative, pur riprendendo lavorazioni artigianali e dettagli di ebanisteria. La versione freestanding presenta linee pulite e forme sinuose che conferiscono un senso di leggerezza all'ambiente. I materiali selezionati garantiscono la durata nel tempo, la resistenza all'umidità e la facilità di pulizia. L'illuminazione a LED può essere incorporata negli specchi e nei cassetti, creando un'atmosfera rilassante attraverso la luce soffusa.

MA is a unique new collection that distinctively combines innovative technologies with hand-craftsmanship and woodworking details. The freestanding version features clean lines and sinuous shapes that lend a sense of lightness to the space. The materials used guarantee durability, resistance to humidity and easy cleaning. LED lighting can be incorporated into mirrors and drawers, creating a relaxing atmosphere with soft light.

I cassetti integrati
offrono ampio spazio
per mantenere
l'ordine nel bagno,
consentendo di
riporre asciugamani,
prodotti per la cura
del corpo e altri
accessori essenziali.

Built-in drawers offer
ample space to keep
things tidy in the
bathroom, holding
towels, personal
care products and
other essential
items.

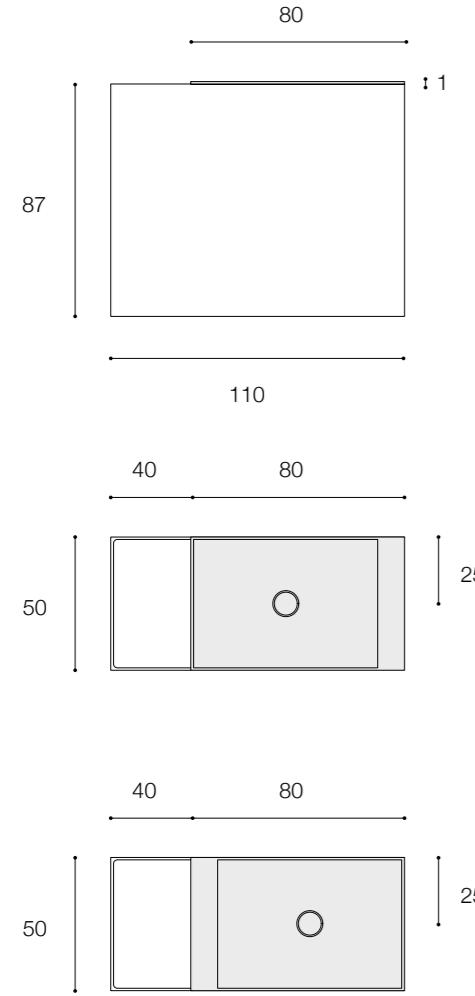

Distillando l'essenza di un bagno al minimo, il sistema MA di Foster+ Partners crea un quadro architettonico flessibile su cui possono essere aggiunti diversi elementi, riconfigurati per soddisfare una miriade di spazi abitativi.

Distilling the very essence of a bathroom, the MA system by Foster+ Partners creates a flexible architectural framework to which various elements can be added and reconfigured to a myriad of living spaces.

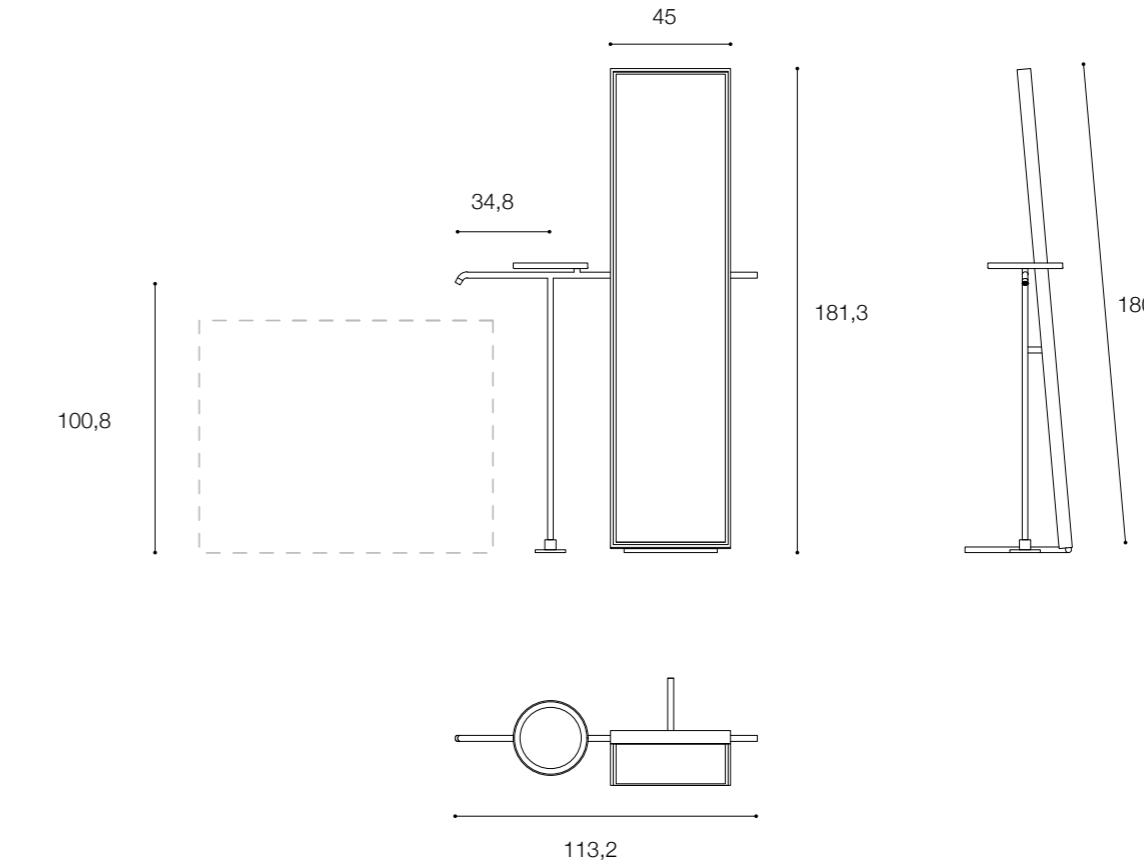

**Base freestanding /
Freestanding base**

L'elemento a isola contiene quattro cassetti ed è realizzato nelle dimensioni di 110 x 50 x H 87cm. I comandi della rubinetteria possono essere posizionati sul piano del lavabo.

The island element contains four drawers and measures 110 x 50 x H 87cm. The valve controls can be positioned on the washbasin countertop.

**Bocca di erogazione da terra con mensola e specchio /
Wall mounted spout with shelf and mirror**

La bocca di erogazione con porta salviette e specchio è realizzata in acciaio AISI 316L in finitura spazzolata o PVD nero e può essere abbinata ai comandi della collezione Acquifero.

The spout with towel holder and mirror is AISI 316L stainless steel in a brushed finish or black PVD and can be combined with valve controls from the Acquifero collection.

er to the bathroom and such as supporting an es for robes and towels. marble or Cristalplant® ed, minimalist elegance.

MA

MA prende il nome dal concetto di “spazio-in mezzo”, caro all’arte e alla cultura giapponese, ponendo l’accento sul raggiungimento di un equilibrio armonioso tra gli elementi e lo spazio tra loro, in qualsiasi composizione artistica. Geometria volumetrica pura di vari elementi primari – lavabi, rubinetterie o specchi – interconnessi da sottili steli di erogazione dell’acqua, delicati ma funzionali.

MA: the name comes from the concept, central to Japanese art and culture, of “space in between,” emphasising the achievement of harmonious balance among elements and the space between them in any artistic composition. Pure volumetric geometry of various primary elements – washbasins, taps and mirrors – interconnected by slim, delicate yet functional water spouts.

I piani di appoggio sono progettati come vassoi spaziosi. Il lavabo - 80cm di larghezza e 45 cm di profondità- può avere una vasca unica o un ripiano di appoggio laterale.

Counter tops are designed like roomy trays. The washbasin – 80 cm wide and 45 cm deep – comes in single basin form or with a lateral shelf.

Foster + Partners

With its studio in London and 13 offices worldwide, the Foster + Partners studio is one of the world's leading architectural practices. Specialising in design and development of innovative structures for all sectors of the market, the studio has delivered major projects across the globe. Committed to design, innovation and quality, the studio is well known for its distinctive and iconic buildings, which have received numerous awards and recognition. Recent projects include the London 2012 Olympic Park, the Gherkin in London, the Reichstag dome in Berlin, and the National Theatre in London.

The studio is also involved in significant developments throughout the world, including the construction of new residential, commercial and cultural buildings, as well as infrastructure projects such as airports, ports and transport hubs. Recent completed projects include the One World Trade Center in New York, the Burj Khalifa in Dubai, and the National Stadium in Rio de Janeiro. The studio is also involved in the planning and design of new cities and urban areas, including the development of the new city of Alserkal in Saudi Arabia and the regeneration of the old town of Medina in Saudi Arabia.

MA esplora la materialità,
basata sulla tavolozza
unica dei materiali Falper.
I mobili possono essere
realizzati in finiture legno
con lavorazioni su legno
massello ed in finitura
laccata lucida o opaca.

MA explores the beauty
of materials from Falper's
unique palette. The
cabinets are available in
wood finishes with finely-
crafted solid wood and
in high-gloss or opaque
lacquered finishes.

Victor Vasilev

VL'architetto Victor Vasilev basa il suo processo di ricerca nei progetti di design su alcuni punti di riferimento consolidati. Il suo stile, in apparenza rigoroso, cela un'ispirazione poetica, con la voglia di sperimentare e di sorprendere, anche se la geometria è la via maestra da seguire. Collabora con Falper dal 2018, ottenendo da allora diversi riconoscimenti internazionali.

Architect Victor Vasilev bases his design research process on a few consolidated touchstones. His apparently unembellished style conceals a poetic heart, and a desire to experiment and to surprise, although geometry remains his guiding concept. He has collaborated with Falper since 2018, receiving several international awards during these years.

ECCENTRICO

L'evoluzione dell'iconica collezione Eccentrico si arricchisce della nuova lavorazione a doghe, realizzata su massello di legno. Questa ulteriore sofisticazione completa il lavabo freestanding, conferendo anche al cilindro di sostegno il carattere di eccellenza che contraddistingue l'intero progetto, sarà adottata anche sulle ante dei mobili porta lavabo.

The evolution of the iconic Eccentrico collection now features wooden slats enhancing solid wood. This further sophistication completes the free-standing washbasin, also giving the support cylinder the character of excellence that distinguishes the entire project, it will also be adopted on the doors of the washbasin cabinets.

MINIMUM

Tra i best seller rivisitati, la collezione Minimum si completa di lavabi realizzati in Cristalplant Bio Active in varie altezze. Restano immutati la sua natura e il perfetto equilibrio dimensionale. L'evoluzione della collezione consente il posizionamento in soluzioni residenziali legate al contract e ai progetti dedicati all'hotellerie, riscuotendo importanti successi.

Among the revisited best sellers, the Minimum collection is completed with washbasins in Cristalplant Bio Active, available in various heights. The collection's original nature and perfect dimensional balance have been maintained. This evolution of the collection, which has been a great success, is also suited for contract residential and hotel spaces.

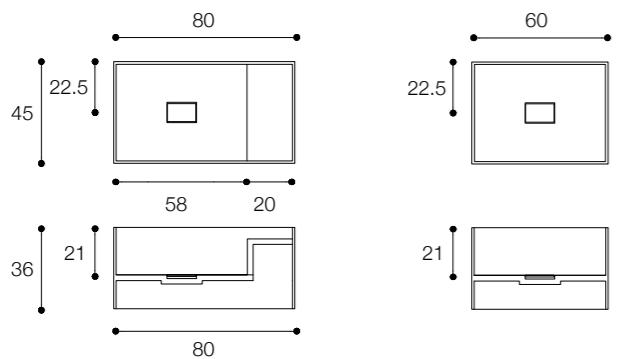

Accanto alla millenaria ceramica, il Solid Surface è un materiale innovativo facilmente pulibile, ripristinabile e riciclabile.

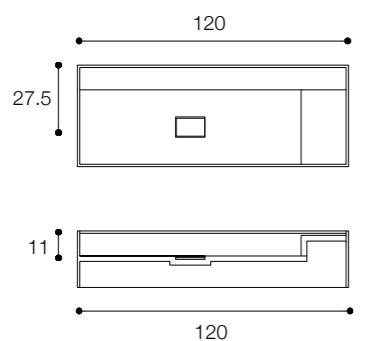

An alternative to classic ceramics, Solid Surface is an innovative, easy-to-clean, restorable and recyclable material.

I lavabi della collezione Minimum sono realizzati in varie altezze in Solid Surface di origine bio, con proprietà antibatteriche, disponibili in tutte le finiture a catalogo.
