

CARE AND MAINTENANCE INSTRUCTIONS

Cristalplant Color

Material Characteristics

Colored Cristalplant is durable, easy to clean, and offers endless creative possibilities. Derived from polyester and acrylic resins, this material provides a wide range of vibrant colors and a unique appearance.

Cristalplant® is known for its beauty resembling natural stone with a soft-touch effect. It is a fully recyclable, hypoallergenic, and non-toxic material.

CARE AND MAINTENANCE INSTRUCTIONS

Cristalplant Color

To always keep the surface in the best condition, it is recommended to pay particular attention to the maintenance phases of the artifact.

Recommendations:

- Use a soft cotton or microfiber cloth and diluted non-abrasive neutral liquid cleaners.
- Thoroughly rinse after using cleaning products.
- Colored detergents should not be left on the surface but should be removed immediately.

Not recommended:

- Do not use aggressive chemicals such as acetone, trichloroethylene, acids, or strong bases.
- Avoid the use and contact of products containing *sodium hydroxide (e.g., caustic soda, sink unblocker, toilet unblocker).
- Industrial cleaners with unknown aggressiveness.

CAUTION: Absolutely do not use cleaners containing acetone, trichloroethylene, hydrochloric acid, and caustic soda, regardless of their concentration and even if diluted, as they tend to attack the material.

Note: In case of scratches or burns, do not sand the product.
