Falper Project Book

Il portfolio progetti di Falper testimonia l'attitudine consolidata all'internazionalizzazione dell'azienda così come la capacità di interpretare un'idea ancora prima che un prodotto. L'abitudine al rapporto con il mondo dell'architettura unita all'ampiezza e versatilità della gamma prodotti è alimentato dalla capacità di Falper di interpretare le esigenze di progettista e committente, esplorando con i nostri specialisti dedicati al contract tutti gli aspetti del progetto.

The Falper's projects portfolio demonstrates the established internationalization ability of the company such as the capability to read an idea even before a product. The practice of the relationship with the architectural world in combination with the extent and versatility of the product range is powered by Falper's ability to understand the needs of the designer and developer, by exploring with our dedicated project specialist all aspects of the plan.

Bespoke dimensions,
Natural and advanced materials,
Unique quality features.

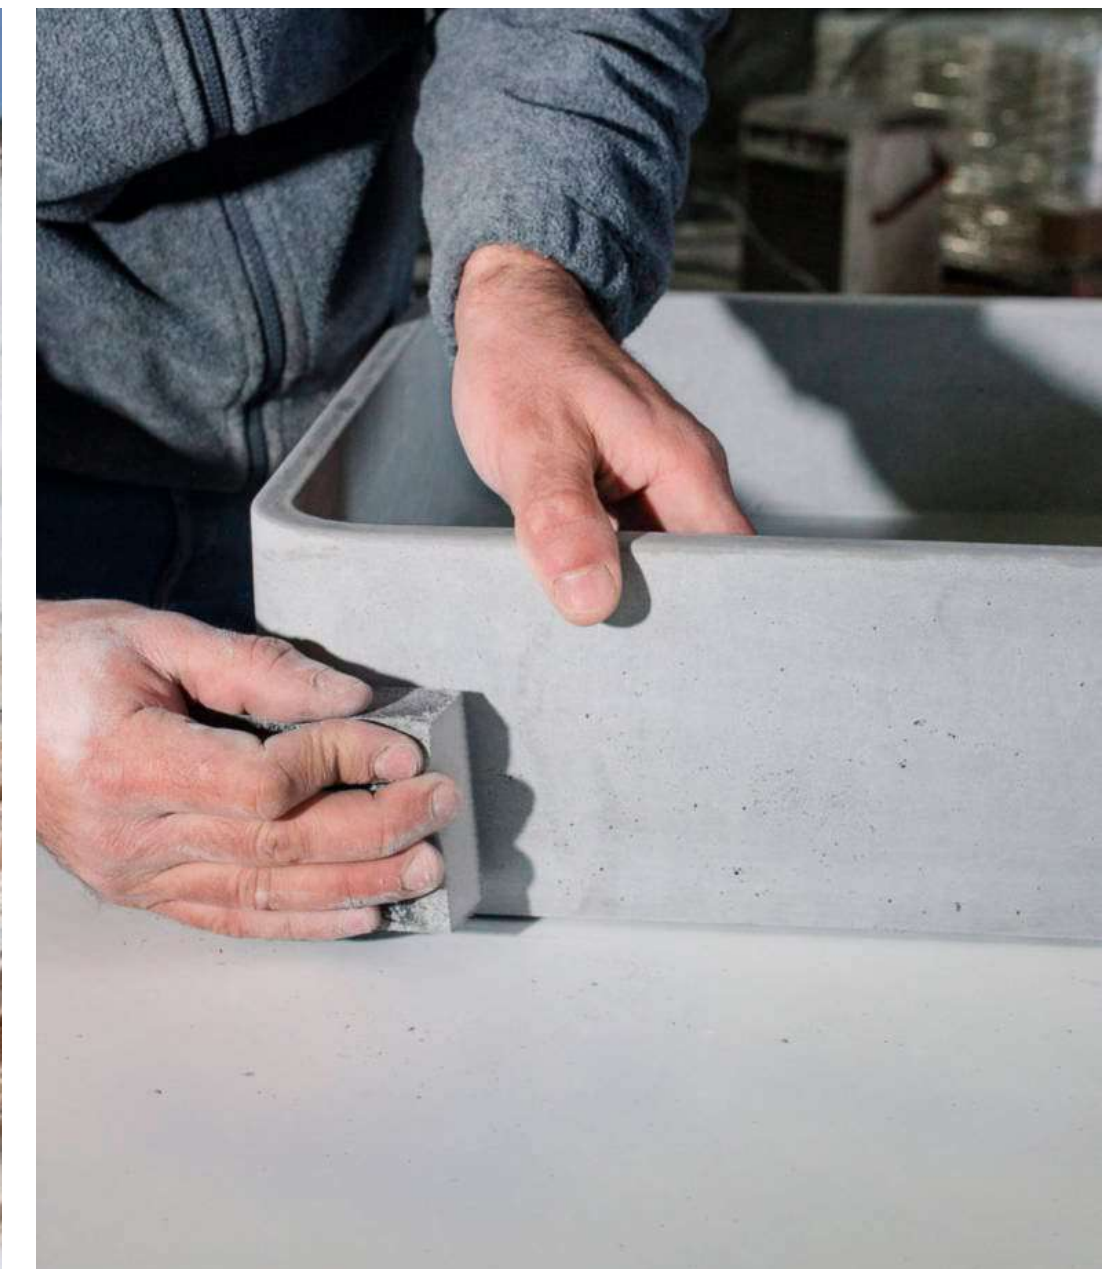

Bespoke dimensions

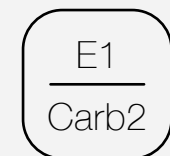

For project implementation, customization of our collections is available. Furniture with doors and drawers, self-supporting tops, countertops with integrated glass and solid surface sinks, marble elements, and mirrors can be made in customized sizes and configurations to meet project needs and dimensions.

Natural and advanced materials

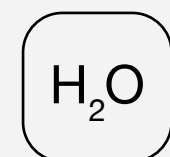

Customization continues with the ability to configure our furnishings and products using the wide range of Falper finishes and materials, or by integrating more advanced technical materials such as Fenix, HPL, and high-performance composite panels.

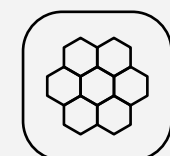

Sustainability

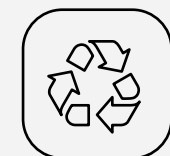

E1 / Carb2 certified furniture.

Completely styrene-free water-based finishes on all furniture.

Oil and natural wax wood finishes.

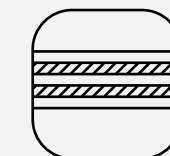

Recyclable sinks and tubs.

Washbasins and tubs of BIO origin and emission of volatile substances certified by UL.

Quality

Furniture in AW100 birch plywood, water-repellent Idropan, MDF, solid oak.

Direct manual lacquering.

Tested painting process for furniture in humid environments.

Hypoallergenic and non-toxic.

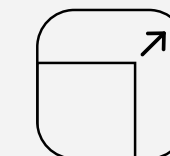

Quality control of every single piece of furniture.

5 year guarantee on sinks and bathtubs.

Characteristics

Furniture and accessories can be made to measure.

45° machining.

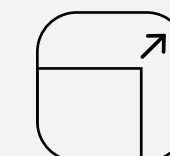

Glossy and matt lacquered finishes and wood finishes.

BLUM Legrabox drawers as standard on all collections.

“OLED” lighting system 6Wx300 lumen.

Mirrors that can be made to measure.

Unique quality features

Sustainability, quality, and the unique characteristics of our materials are a source of security and distinction in our projects. Customization doesn't mean compromising on the latest technologies.

A wide portfolio made of small,
medium and large bathroom
solutions and design icons

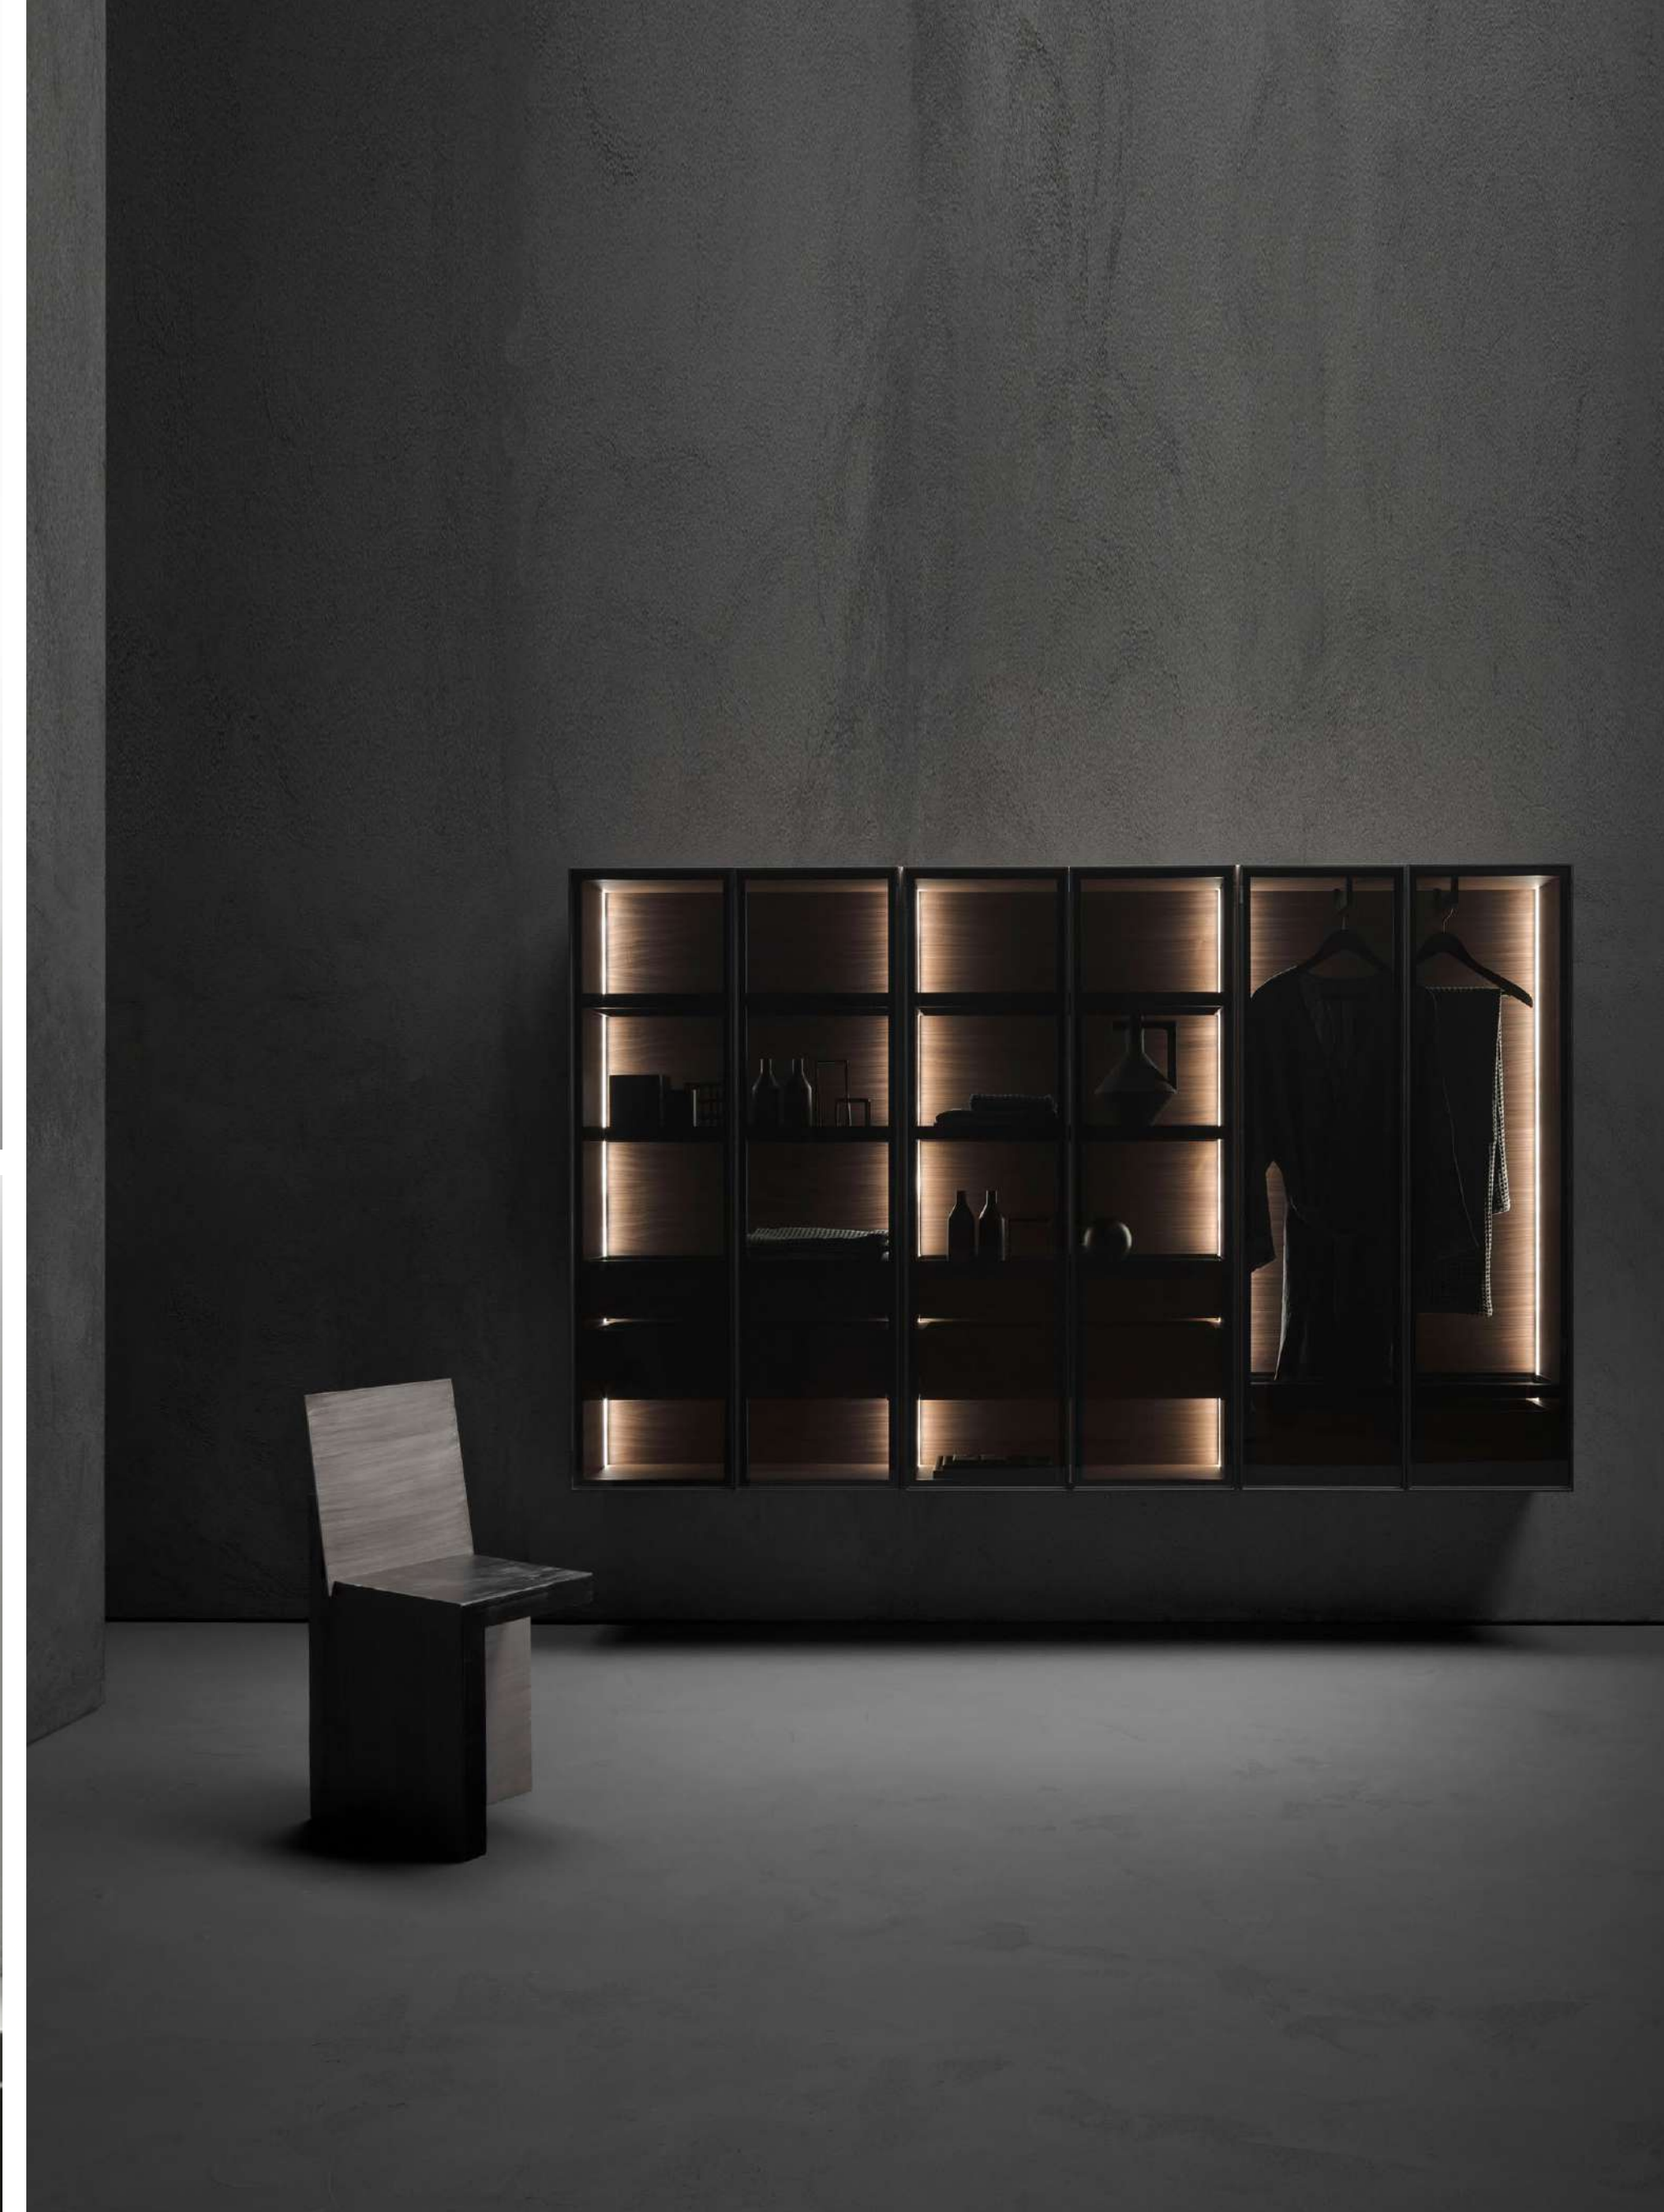

A wide portfolio

Falper offers dream bathrooms in small, medium, and large dimensions. With its extensive range of bathroom furniture and decorative accessories, Falper provides the opportunity to furnish any space, making it a haven of elegance and sophistication.

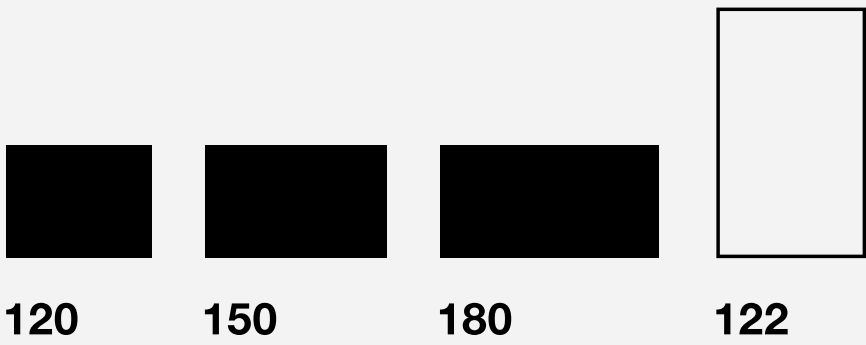

Design icon

In addition to furniture and furnishings, the Falper catalog includes a wide range of accessories and complements as taps, bathtubs, basins, wardrobes that are design and quality icons.

SMALL LIVING KITCHENS™

A new system that revolutionizes the kitchen experience in prestigious small homes. A dream kitchen that offers superlative quality and functionality and the convivial layout typical of larger spaces in remarkably innovative compact dimensions, starting from just 2.5 square meters.

For residential, offices and suite hotels

Positioned in space as if they were living room furnishings. Objects to be displayed in continuity with a refined living area or within hotel suites. Materials, craftsmanship, finishes, and construction details have been designed to break away from the traditional kitchen concept.

Get inspired, use our quality,
together we transform your project
into extraordinary spaces.
